Team Borgå's bassplayer, Dick Gustafsson, will leave Borgå for Kristiansstad in Skåne, Sweden.

Wednesday is the day of departure. Dick will study plastic techniques in a school in Skåne. Dick understands the language will be a problem, but he has allready studied it for a while. He can even give us a greeting in the native Skånian language:
"-Deäat skaeällöö blieä träaevlieaet!"
It would be nice if someone could translate it into a more understandable language. ▪
