Oz (Oz) and Maz (Mathias) where once again the perfect road trip and festival company. The strengths are many: Their intellects, their devotion to the Lord etc.

By continuing the SWOT analysis the weakness follows: Neither one of them are girls. O is for opportunities. In this case that is a perfect opportunity to grow in faith and wisdom along with great humour.

T is for Threats. This is the sad part. Eventually all the boys will one day get married and get stuck on the sofa and by the TV.

Other related comments:
"Oz is ideal when it comes to organizing trips or events as he always is on, whether his not dying or worse. ", said Linus, who continued with "Mathias and Oz has also a great taste, at least they eat kebab like real Arabs."

Fredi should not be forgotten, since he has been included in the RTPC (Road Trip Premium Company) - level since the Eurotour 1999. Fredi did not, however, attend the Maata Näkyvissä event. ■
